

## Job Description

Permanent position (m/f)

We are looking for  
**Junior Researcher (m/f) Nordics**  
**Content Department**

to start in our Hamburg office as soon as possible

Statista.com unites professional IT experts, industry-savvy researchers and renowned analysts. Together, we operate one of the world's leading statistics portal. Using our innovative and intuitive research tool, we supply our international customers from economic, educational and media backgrounds with current and relevant quantitative data. Be a part of this multiple award-winning company and contribute to its success story.

### Your task

- Creation of online statistical content covering the leading industries on the Nordic market (i.e. e-commerce, technology and telecommunications and other)
- Conducting data research on various topics for the Nordics region
- Publishing data in English using Statista's own content management system (CMS)
- Managing and monitoring data usage, with focus on current and interesting industry trends and on-demand market information

### Your background

- Successful completion of undergraduate studies
- Exceptional written and spoken English and Swedish, Danish, or Norwegian, preferably native speaker
- Ability to describe complicated data in a concise and comprehensible manner
- Structured, organized and independent working style with attention to quality, detail and accuracy
- First experience in project management

### Our offer

You will work in an exciting and innovative company in the heart of Hamburg. As part of a dynamic team, you will find an excellent working environment with little hierarchy and great potential for promotion within the company.

During the first six months, you will become familiar with our content management system and business practices while publishing content in English. Upon completion of this period you will be responsible for various topics on the Nordics market, working as a Junior Researcher for Statista.com

We look forward to your application via e-mail. Please include your salary expectations among your application material.
